

# Misuro B+

- \_ It's always possible to display power data for each hometrainer when using the Misuro B+ with the Elite My E-Training app.
- \_ However, if you're using Misuro B+ with other apps or devices, available data changes based on the type of hometrainer.
- \_ Make sure your trainer has a "Misuro compatible" sticker on the frame.. If you can't find it, please contact us at [info@elite-it.com](mailto:info@elite-it.com) so we can confirm if your hometrainer is compatible with the Misuro B+ sensor.
